

#### SAFETY

At SUNJIN, the fundamental principle that governs all operations is "Safety First." The unwavering commitment to safety ensures that all services meet the highest safety standards, providing peace of mind to everyone interacting with the brand.

#### RELIABILITY

A malfunctioning machine can threaten your safety and survival when you are out at sea. You rely on the machinery to function properly until its scheduled maintenance. SUNJIN can offer reliable repair services to ensure your vessel stays in top shape during its voyage. Trust us to keep you safe and secure on your journey.

#### COMPETITIVE PRICE

As a ship manager, it can be challenging to balance quality with price. At SUNJIN, we understand this struggle and aim to provide competitive pricing without compromising on excellence. Our premium services are available at a reasonable cost that satisfies everyone.

#### CUSTOMER SERVICE

We place great value on the feedback and opinions of our customers. We are committed to continuously improving our services to meet the constantly evolving market demands. SUNJIN looks forward to serving you with the utmost professionalism and dedication.

#### REGULATORY COMPLIANT

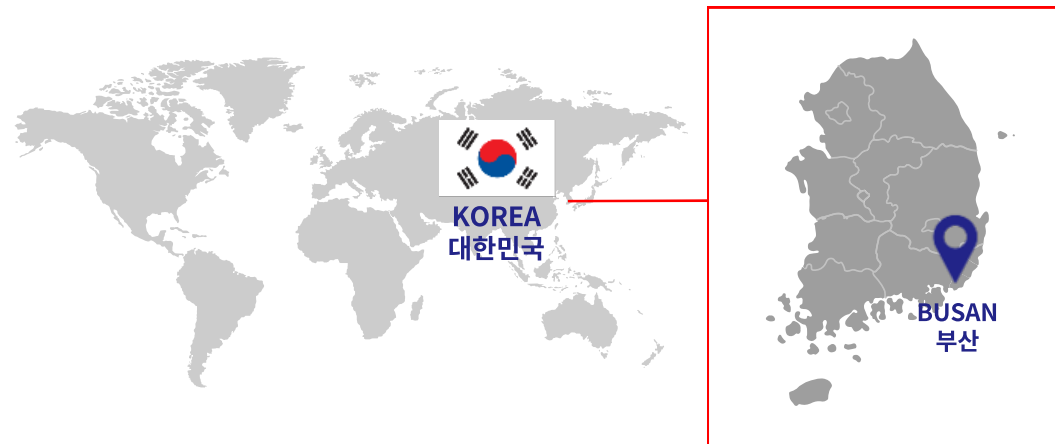

SUNJIN is committed to compliance and takes pride in its exceptional craftsmanship, ensuring hassle-free inspections and satisfaction for crew and ship owners. The company is certified by ABS, DNV, KR, Bureau Veritas, and Lloyd's Register, attesting to the company's unwavering commitment to quality and adherence to stringent industry standards.

#### DEPENDABLE DELIVERY

Adequate downtime is necessary to ensure crew members' optimal performance before embarking on their next voyage. However, prolonged inactivity can lead to significant losses for ship owners. In this regard, SUNJIN offers a dependable and efficient service that guarantees your vessel's timely repair and delivery, ensuring that it is fit for its next journey.

Communication | Innovation | Precision | Integrity

**SUNJIN GROUP is a ship repair company located in Korea. We have been serving in the maritime industry for over 60 years.**

SUNJIN GROUP, situated in South Korea, is a highly regarded ship repair company providing its services since 1962. With its strategic location between Asia and the Pacific Ocean, the company has established itself as a reliable provider of hassle-free, one-stop services, with expertise in various repair services, such as engine, machinery, pipe, hydraulic, hull, and propeller repair.

With six affiliate companies, SUNJIN possesses a high level of experts in repairing various vessels, ranging from fishing boats to oil tankers. Our commitment to ensuring transparent and efficient communication with our clients is a source of pride for us. We employ streamlined tactics to manage and schedule repairs, minimizing the ship's downtime.

Over the six decades, we have established strong partnerships with local and international engine and machinery parts vendors. The company's procurement team maintains a vast database and supply chain, enabling it to provide any spare parts its clients may require.

Additionally, SUNJIN is proud to be the official partner for several esteemed companies, including Fairbanks Morse Defense (FMD), Cummins, STX Engines, Steyr Motors, and TWG (Pull Master).

Overall, SUNJIN GROUP's experience, expertise, and strong partnerships with industry leaders make it a reliable choice for clients seeking efficient, high-quality ship repair services.

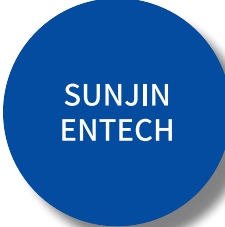

# SUNJIN

## Always Moving Forward

SUNJIN ENTECH offers diverse services to our clients' needs. From general repairs to modification projects, we have the expertise to handle any task efficiently and precisely. Our state-of-the-art machinery and skilled engineering team ensure we deliver prompt, high-quality repairs and maintenance.

CMTEC KOREA specializes in designing and providing customized solutions for marine hydraulic machinery. Our engineers meticulously examine the vessel's operation and structure to ensure the hydraulic system functions flawlessly. We also offer various pipes, hoses, and parts for repair.

SHERWOOD KOREA is a pier service company that provides a range of services, including shore power, cranes, forklifts, and tug boats. We support SUNJIN-affiliated companies' projects and cater to ship crews' needs. Our commitment to quality and reliability ensures that all services are delivered promptly.

SUNJIN JONGHAP provides precise engine repair and spare reconditioning solutions for shipowners and power plant. Our technicians perform on-site services and machining to minimize downtime. We offer authentic OEM parts for your engines ensuring smooth operation.

SUNJIN SHIPBUILDING offers repair services for all vessels used in maritime operations, including shipping, fishing, and dredging. Our shipyard features nine slipways with a capacity of up to 3,000 tons, allowing us to offer hull repairs and preservation work for a diverse range of ship classes.

CM KOREA is a manufacturer of fish processing equipment. Our team of skilled in-house engineers designs to optimize yield and throughput to meet the needs of our clients. Our welders deliver durable stainless steel products on schedule, ensuring business operations run efficiently.
